

Session Program

30 November 2026 to 4 December 2026

13th International Geant4 Tutorial in Korea 2026

Computing and Programming

Science Culter Center, Institute for Basic Science
55, Expo-ro, Yuseong-gu, Daejeon, Korea, 34126

Monday 30 November

11:00

Computing and Programming: Virtual Machine

Session |

Location: Science Culter Center, Institute for Basic Science, 55, Expo-ro, Yuseong-gu, Daejeon, Korea, 34126

11:00–11:30 **Installing Geant4**

Speaker

Hoang Tran

11:30–12:00 **Introduction to the Virtual Machine**

Speaker

Sebastien Incerti

12:00–12:30 **Hands-on Virtual Machine**

Speaker

Sebastien Incerti

12:30

14:00

Computing and Programming: Bash and GNU / Linux

Session |

Location: Science Culter Center, Institute for Basic Science, 55, Expo-ro, Yuseong-gu, Daejeon, Korea, 34126

14:00–14:30 **Introduction to GNU/Linux**

Speaker

Luis Sarmiento Pico

14:30–15:30 **Hands-on with Bash / Linux**

Speaker

Luis Sarmiento Pico

15:30

16:00

Computing and Programming: Programming refresher

Session |

Location: Science Culter Center, Institute for Basic Science, 55, Expo-ro, Yuseong-gu, Daejeon, Korea, 34126

16:00–17:00 **Programming refresher from Python to C++**

Speaker

Luis Sarmiento Pico

17:00–17:30 **Hands-on C++**

Speaker

Luis Sarmiento Pico

17:30

Tuesday 1 December

09:00

Computing and Programming: Monte Carlo

Session |**Location:** Science Culter Center, Institute for Basic Science, 55, Expo-ro, Yuseong-gu, Daejeon, Korea, 34126

09:00–09:30

Introduction to Monte Carlo Methods

Speaker

Luis Sarmiento Pico

09:30–10:30

Hands-on with MC in Jupyter

Speaker

Luis Sarmiento Pico

10:30
