

Session Program

17-22 Aug 2026

**12th Workshop on Flavor Symmetries and
Consequences in Accelerators and
Cosmology (FLASY 2026)**

Neutrino 2

Commodore Hotel
Gyeongju

Tuesday 18 August

14:00

Neutrino 2

Session | **Location:** Commodore Hotel, Gyeongju

14:00–14:30

Lepton number densities of Majorana neutrinos at the low energies and implications on neutrino properties

Speaker

Morozumi

14:30–15:00

Application of a non-holomorphic modular symmetry for neutrino mass models

Speaker

Takaaki Nomura

15:00–15:30

Invariance of the Friedberg-Lee translation as a partial flavor symmetry

Speaker

Zhi-zhong Xing

15:30
