## Tuesday 18 August

16:00

### Contributed 1

**Session** | **Location:** Commodore Hotel, Gyeongju

16:00–16:20

#### **RG Running of Multiple Neutrino Mixing Parameters at Oscillation Experiments**

**Speaker**

Chui-Fan Kong

16:20–16:40

#### **Structure functions at low momentum transfer and neutrino cross sections (tentative)**

**Speaker**

Yu Seon Jeong

16:40–17:00

#### **Dirac Neutrino Masses from the Scoto-Seesaw Mechanism**

**Speaker**

Ranjeet Kumar

17:00–17:20

#### **The Goldstone Portal to Charged Lepton Flavour Violation**

**Speaker**

Antonio Herrero Brocal

17:20–17:40

#### **Quark hierarchies and CP violation from Siegel modular forms**

**Speaker**

Matteo Parriciatu

17:40–18:00

#### **Stringy Constraints on Modular Flavor Models**

**Speaker**

Takafumi Kai

18:00
