

Session Program

17-22 Aug 2026

**12th Workshop on Flavor Symmetries and
Consequences in Accelerators and
Cosmology (FLASY 2026)**

Contributed 6

Commodore Hotel
Gyeongju

Friday 21 August

16:20

18:00

Contributed 6	
Session	Location: Commodore Hotel, Gyeongju
16:20-16:40	Extracting Dark-Matter Mass from Angular Scanning Speaker Daeyeong Jeong
16:40-17:00	Radiatively-generated top quark flavor-changing neutral currents from dark matter Speaker Adil Jueid
17:00-17:20	General Perspective on Boosted Dark Matter from Semi-annihilation Speaker Seongsik Kim
17:20-17:40	Peccei-Quinn genesis Speaker Junho Song
17:40-18:00	Light Dark Matter Sensitivity at the J-PARC Intermediate Water Cherenkov Detector Speaker Seong ha Kim
