축하합니다

BACKUP

2024 TYL-FJPPN Young Investigator Award

- would have been the **9th year** for the FJPPL YI award and **1st** for the FJPPN
- the aim of the TYL-FJPPL Young Investigator Award is to highlight and promote the individual work of junior scientists active within the TYL-FJPPL Japanese and French teams.
- the TYL-FJPPL Young Investigator Award will reward up to two PhD students or postdoctoral researchers every year, based on the excellence of their contribution to one of the TYL-FJPPL supported collaborative projects.
- the nominations should include a brief description of the work and particular contribution of the candidate (half page to one page long), a CV and at least one letter of recommendation.
- as part of the award, selected candidates will be invited by the TYL-FJPPL to present their work during an Award Ceremony at the next joint TYL-FJPPL and FKPPPL annual workshop.

2024 FKPPN Young Investigator Award

- would have been the **7th** year of the FKPPL YI award and the **1st** of FKPPN
- the aim of the FKPPL Young Investigator Award is to highlight and promote the individual work of junior scientists active within the FKPPL Korean and French teams.
- the FKPPL Young Investigator Award will reward one PhD student or postdoctoral researcher every year, based on the excellence of their contribution to one of the FKPPL supported collaborative projects.
- the nominations should include a brief description of the work and particular contribution of the candidate, a CV and two letters of support.
- as part of the award, the selected candidate will be invited by the FKPPL to present his/her work during an Award Ceremony at the next joint FKPPL and TYL-FJPPL annual workshop.
