

How to come to Daejeon/accommodations from ICN airport and some useful expressions in Korean

1. From Incheon International Airport to Daejeon (by airport bus)

The airport bus runs every 20 or 40 minutes. For details, plz visit:

<http://www.airport.kr/pa/en/d/3/1/1/index.jsp>

The bus leaves the airport arrives in Daejeon first at Do Ryong Dong (도룡동) then near the Government Complex Building as the second stop before terminating at the Daejeon Eastern Express Bus Terminal. There may be a short break in a highway resting area before getting to Daejeon. **Note that right after the toll gate of the high way, the bus stops briefly, but this stop is not an official one. So please do not count this stop as first stop.**

So, in summary: brief (informal) stop right after the toll gate --- Do Ryong --- Dae Jeon Government Complex Building

Once the bus exits from the high way, PLZ get off at the second stop "**Dae Jeon Government Complex Building**" (in Korean, 대전정부청사) which is the convenient stop to take a taxi.

(Note that there is an airport bus with Dae Jeon and Sejong, 대전 (세종).

This bus also comes to Dae Jeon **Government Complex Building**" (in Korean, 대전정부청사), but it will take more time. It is recommended not to take this bus since it is a bit confusing. So PLZ **don't take** the airport bus with Daejeon and Sejong, 대전 (세종).)

Take a Bus to Daejeon (대전).

Bus stop is on the 1st Floor **9D** in front of the arrival terminal during normal operating hour

Please let me have a ticket for Daejeon.

대전 가는 표 한장 주세요. 감사합니다.

2. From Incheon International Airport to Daejeon (by train)

Incheon Int'l Airport → Seoul (Train) Station → Daejeon(Train) Station

For more details, PLZ visit <http://www.arex.or.kr/main.do>

- From the airport to Seoul station

You can directly access to Seoul station from Incheon airport by the airport train AREX.

There are non-stop and regular (or all stop) airport trains. Regular trains take a bit more to come to Seoul station. Non-stop might be preferred.

A smooth and convenient trip to Seoul through six transfer stations

AREX operates across a total of 10 stations.

Of these, six are connected to metro subway stations, making it more convenient for you to get around Seoul.

In particular, AREX runs through two international airports -- Incheon International Airport and Gimpo Airport -- thus ensuring a safe and pleasant trip to Korea.

- From Seoul station to Daejeon station,

It will take one hour by KTX (fast train).

Friday is the busiest day (especially afternoon and evening), and so it may be difficult to get the ticket unless you make the reservation a few days earlier.

- If you are lucky, you can take KTX trains at Incheon airport directly to Daejeon station. But, this train does not run that often. PLZ check it with information desk at the airport.
