

Status of Neutrino Astronomy

Monday, 12 October 2015 09:15 (45 minutes)

The latest results from neutrino telescopes will be reviewed. The observation of high-energy astro-physical neutrinos by IceCube will be discussed and potential sources candidates evaluated. The talk will conclude with an overview of the discovery potential at the next generation of neutrino telescopes.

Presenter: Dr ROTT, Carsten (Sungkyunkwan U.)

Session Classification: Plenary Session
