

The 3rd Asia-Pacific Symposium on Solid Surfaces & Cross-Strait Symposium
on Solid Surfaces

Contribution ID: 57

Type: **not specified**

**Very different adsorption path ways of diatomic and
triatomic molecule on single, arrays, clusters, pairs,
and domains of reactive sites on the Si(100)
surface_Dengsung Lin(National Sun Yat-Sen Univ.,
Russia)**

Wednesday, 22 August 2018 09:50 (20 minutes)
