Session Program

Nov 19 – 20, 2018

Recent Progresses in Gravitational Wave Sciences and Perspectives

Session I: Results and issues from GW observations

Center for Theoretcial Physics of the Universe, CTPU seminar room B438
Institute for Basic Science

Mon, November 19

11:00 AM

Session I: Results and issues from GW observations

Session |

Location: Center for Theoretcial Physics of the Universe, CTPU seminar room B438, Institute for Basic Science

11:00 – 11:10 AM **Opening remarks**

Speaker

Prof. Hyung-Mok Lee

11:10 – 11:50 AM **Astrophysical implications of the gravitational wave observations**

Speaker

Prof. Hyung-Mok Lee

11:50 AM – 12:30 PM

Implications of GW observations for neutron star physics and extreme matter

Speaker

Prof. Hyunkyu Lee

12:30 PM
