

The 3rd Annual Autumn AIM Workshop on Immune Homeostasis

Monday, 16 November 2015

SESSION III: Immune memory and function - 182 (09:00 - 12:20)

-Conveners: Dipayan Rudra

time	[id] title	presenter
09:00	[15] Transgelin2 is a new actin regulator for T cell and macrophage activation	JUN, Chang Duk
09:25	[16] T cell survival following acute and chronic infections	HEDRICK, Stephen
09:55	[17] Divergent immune responses of phenotypically distinct naive CD8 T cell subsets	CHO, Jaeho
10:25	BREAK	
10:45	[18] CD8 Resident Memory Tumor Infiltrating Lymphocytes: Good, Bad, or Indifferent	WEINBERG, Andrew D.
11:15	[19] Immunotherapy with DC nanovesicles	SPRENT, Jonathan
11:45	[20] TRAF6 expression in DCs is essential for tolerance to dietary antigens	HAN, Daehee
12:10	CLOSING COMMENTS
