

Geometric view for the PNCB potential

Thursday, 15 June 2023 16:50 (20 minutes)

We investigate the pseudo-Nambu-Goldstone bosons (pNCBs) potential in the geometrical point of view. In this talk I will discuss how to essentially organise or structurally understand the pNCB potential without recourse to the UV symmetries.

Secondary category for the parallel session (optional)

BSM Theories

Primary author: KANG, Dong Woo (KIAS)

Presenter: KANG, Dong Woo (KIAS)

Session Classification: Parallel: BSM Theories and Flavor Physics

Track Classification: Parallel Sessions: BSM Theories
