

## Effects of NSI on neutrino oscillation parameters measurements

*Tuesday, 4 June 2024 14:30 (30 minutes)*

In this talk I will discuss Non-Standard neutrino Interaction (NSI) at its effect on neutrino oscillation parameters. I will explain the LMA-Dark solution, degeneracies induced by NSI of  $\delta_{CP}$  measurement. Moreover, I will discuss the effect of NSI on solar and atmospheric neutrinos.

**Presenter:** BAKHTI, Pouya (JBNU)

**Session Classification:** Plenary7
