

The 4th Workshop on New Physics Opportunities at Neutrino Facilities

Tuesday, 4 June 2024

Contributed talks I - Science and Culture Center (15:20 - 17:20)

-Conveners: Seokhoon Yun

time	[id] title	presenter
15:20	[15] Analyzing light sterile neutrino at DUNE and the role of beam tune, neutral current and near detector	MASUD, Mehedi
15:40	[13] N_{eff} constraints on the Dark Axion Portal	HONG, Heejoung
16:00	[14] Reactor antineutrino flux from neutrino- ^{13}C neutral current interactions	PARK, Min-Gwa
16:20	[11] Searching for ν_{τ} disappearance in the SHiP experiment	YOO, Seong Moon
16:40	[10] Physics at the SND@LHC	CHOI, Ki-Young
17:00	[31] BeamHNL, a GENIE-based general heavy neutral lepton generator	LI, Weijun
