

Summer Institute 2025 (Aug 17 - 22, 2025)

Tuesday, 19 August 2025

Parallel session 4 (16:30 - 18:30)

-Conveners: Jeong Han Kim

time	[id] title	presenter
16:30	[34] Exploring chirality structure in nucleon decay	TAKAHASHI, Hiroki
16:50	[35] Future beam dump experiments constraint on light bosons with lepton flavor violating couplings	ASAI, Kento
17:10	[40] VBF for Higgs to BSM at the future Muon Collider	JANG, Yongik
17:30	[62] Quantum entanglement in top quark pair production at a photon collider	KANG, Dong Woo
17:50	[54] Constraints on MeV Axions from Kaon Decays	IWAI, Takaya
18:10	[56] Trilinear Higgs Coupling as a Probe for Extended Higgs Sectors	OHZAWA, Shuhei
